OBJECTIVE

To pursue a challenging career and to be a part of a progressive organization that gives scope to enhance my knowledge and utilize my skills towards the growth of your organization.

EXPERIENCE

SOFTWARE ENGINEER | SAMHITHA AGRO TECH SOLUTIONS PVT LTD, HYDERABAD.
DEC 2019 – TILL DATE (1.3 YEARS)

DESCRIPTION:
Coming from an agricultural background and armed with first hand farming experience, we understand the real world problems faced by the farmers. We have also discussed with many other farmers and farmer societies in different areas/villages. Most of them are saying the same thing that they want to sell the products directly to the customers, so that they get the better price, but they don't know how to sell directly. The result of these discussions and the experience of our farming have given birth to www.greenfarmmarket.in through which we want to help the farmers directly and try to address some of the issues faced by them.

RESPONSIBILITIES:
- I was involved and worked as a result oriented fresher in a startup company working with the object oriented language and application development, service delivery and client relationship in the e-commerce domain.
- Professional with 1.3 years of experience in design, developing and Web development complex applications using Angular 5, Java, MySQL and Elastic Search.
- Design, develop, implement, and maintain java application phases, code, and software. Conduct software analysis, programming, testing, and debugging, as well as recommending changes to improve the established processes.
- Creating various test documentations, test strategy and test plans that helps us to overcome different issues to increase our knowledge and company's growth.
- Handling JAVA development including design and troubleshooting of applications for mission critical systems and delivering high availability and performance.
- Involved in Functional, Manual testing.
