

LAKSHMI PRASANNA GANDLA

Contact no: +91-6303968040

Email Id : gandlalakshmiprasanna77@gmail.com

Git Lab : <https://gitlab.com/gandlalakshmiprasanna77>

PROFILE SUMMARY

To take up a challenging position in dynamic organization where I can efficiently contribute my skills as software professional.

ACADEMIC QUALIFICATION

- **B.TECH(C.S.E)** **2015-19**
Percentage 75%,
YSR Engineering College of Yogi Vemana University, Proddatur.
- **Intermediate** **2013-15**
Percentage 90.01%,
Rao's Junior College , Nandyala.
- **SSC** **2012-13**
Percentage 9.2,
Z.P.High School, Nossam.

TECHNICAL SKILLS:

- Programming Languages : C,Python,Core Java, JavaScript
- Frontend libraries : React and Redux
- Backend libraries : Express
- Web technologies : CSS, HTML
- Operating System : Windows, Linux
- Data base : SQL
- Source control : GIT

PERSONAL SKILLS

- Highly motivated and eager to learn new things.
- Hardworking nature.
- Self-motivated and flexible in nature.

PROJECTS

Academic project

Trello Clone

Git Lab URL: Title: <https://gitlab.com/gandlalakshmiprasanna77/trello-react-lakshmi>

Environment : HTML, Bootstrap,CSS, JavaScript, React.js, Redux, Node.js, Visual Studio.

Description : It is a simple to-do list for keeping track of tasks to be accomplish. I built a trello clone using official trello API where the user can create a multiple boards and multiple lists. It is useful to break down our projects down into achievable steps.

Title: Hostel Management System

Envoronment: Html,CSS,python,SQL,Windows

Description: “ONLINE HOSTEL MANAGEMENT SYSTEM” is software developed for managing various activities in the hostel. For the past few years the number of educational institutions is increasing rapidly. Thereby the number of hostels is also increasing for the accommodation of the students studying in this institution. And hence there is a lot of strain on the person who are running the hostel and software’s are not usually used in this context. This particular project deals with the problems on managing a hostel and avoids the problems which occur when carried manually. Identification of the drawbacks of the existing system leads to the designing of computerized system that will be compatible to the existing system with the system which is more user friendly and more GUI oriented. We can improve the efficiency of the system, thus overcome the drawbacks of the existing system.

Declaration:

I hereby declare that all the information stated above is true to the best of my knowledge and belief.
