

PROFESSIONAL SUMMARY

- Having **1.5** years of experience in software apps using **Java** and **J2EE** based technologies
- Hands on experience on frameworks like **Spring, Spring MVC, Hibernate** and **Spring Boot**
- Hands on experience on technologies like **Servlets, JSP, JDBC** and **Webservices**
- Hands on experience on **spring** modules like **IOC, MVC, ORM, REST**
- Having knowledge **design patterns** like **Singleton, MVC**
- Have good knowledge on **SQL**
- Hands on experience on unit testing with **JUNIT** and **Mockito**
- Worked on application servers like **Tomcat**
- Worked on version control system like **GIT**
- Worked on build integration tool **Maven, Jenkins**
- Understanding Business Requirements, flow of application and Capable of fixing the defects in the application
- Very good knowledge of all the Object Oriented Programming concepts
- Excellent analytical capabilities and good communication skills
- Ability to adapt to new environments

SKILL SET

Skills	Experienced
Languages	Java, SQL, JavaScript, HTML
Database	Oracle, SQL
Web Technologies	jQuery, AJAX, XML, Bootstrap, Webservices
J2EE Technologies	Servlets, JSP, JDBC
Frameworks	Spring, Hibernate, Spring MVC, Spring Boot, Spring IOC, Spring ORM
Build Tool	Maven
IDE's	Eclipse, STS
Other Tools	Junit, Mockito, LOG4J, GIT, JIRA
Web Server	Tomcat
CI Tools	Jenkins
Operating Systems	Windows

QUALIFICATION

- **B. Tech (Petroleum Technology)** from Giet college of engineering Rajahmundry in 2019

PROFESSIONAL EXPERIENCE

- Working as a **Java Developer** in **EBRAIN Software And Solutions Private Limited** from July, 2020 to December, 2021.

PROJECT EXPERIENCE

Project#1	EHire
Environment	Spring Boot, Spring MVC, Spring ORM, Spring IOC, Hibernate, Web Services, Eclipse, LOG4J, MAVEN, SVN, Junit, Mockito, Tomcat, Oracle 11g, HTML, CSS, jQuery, AJAX
Role	Developer
Team Size	6
Duration	July 2020 to Decemeber 2021
Client	Unified Infotech, Australia
Description	<ul style="list-style-type: none">➤ EHire is an online application with which recruiter could be able to post jobs based on job requirements.➤ It is a hybrid web application which will work on both mobile and desk top.➤ All open positions could be viewed on Job portal from where internal or external candidates could apply for the open positions.➤ Before applying candidate need to register on job portal and could apply for job.➤ Job applying process is sequence of configured forms based on job type, candidate fill all the required forms and submit the application.➤ Candidate has features like Notify jobs, save jobs, job alerts, search jobs ...etc.➤ Candidate could manage his/her applications from his account of job portal.
Position	Software Engineer
Responsibilities	<ul style="list-style-type: none">➤ Used Spring IOC to resolve dependencies➤ Involved in developing controllers using Spring MVC➤ DAO layer development with Spring ORM➤ Performed backend validations using Spring
