PERSONAL PROJECTS

Unit Converter (09/2016 - 10/2016)

- Unit Converter: The project was done using C language. It was developed to make conversions easy. It was done using commands and functions of C language.

Student Education (02/2019 - 04/2019)

- This was a group project done on QT creator. Every student faces some problems to get study material. They don't study everyday and when exams are there they start getting worried. So we had made an application through which students can login and after that it will send them notification per week to remind them which subject to study and when.

Digital Marketing (01/2021 - 03/2021)

- Digital Marketing training at RichestSoft Technology, Mohali. I got trained in SEO, SSM, PPC, Google analytics and Google console in 3 months.
