- Cloud tools-Browserstack, AWS Device farm
- IDE-Intellij, Eclipse
- Code repo-Git, Bitbucket
- Office suite-Google, Microsoft
- Other tools-Zeplin, App center, Maven, Jenkins, Docker

Project Details

- **Magic Mountain**

The app is a socially interactive tool which allows users to set activity-based goals, share them with other individuals and collaboratively track progress. It aims to help people build healthy habits, through the power of group psychology, teamwork and friendship. Magic Mountain launches during a period of unprecedented uncertainty and aims to provide people across the UK with a solution for maintaining their physical wellbeing and connectivity with friends, family and colleagues in the wake of social distancing measures and relative isolation.

- **PlantLife**

PlantLife is designed to celebrate your connection to your beloved plants from the get-go. Case in point, when you set up an account, you start by taking a photo not only of yourself, but of your plant babies, too. After each photograph, you're asked to share the plant's name, species, age, and a description
